

The Bassetlaw Accountable Care Partnership (ACP) Board

The ACP Board is an alliance partnership and does not require organisations to cede sovereignty of decision-making. The main **purpose** of the ACP Board will be to;

- Oversee the continued development and delivery of the Bassetlaw Place Plan.
- Develop, support and evaluate;
 - Provider innovation and new models of care
 - Outcome led commissioning and provision
 - Integration of personal care and support that brings together professionals to work across traditional organisational and professional boundaries.
- Position the Bassetlaw health system to align with the SYB ACS to maintain sustainable services and anticipate and respond to national changes in policy

It is anticipated that the delivery of these priorities will require and lead to **five important benefits**;

- New ways of caring for and supporting patients underpinned by holistic integrated care
- A more efficient health and social care system that seeks to maximise added value for the tax payer
- New ways of allocating financial resources with incentives aligned to improved care and patient outcomes
- New ways of transacting business ie contracts
- Health and social care professionals working across and outside their employing organisation

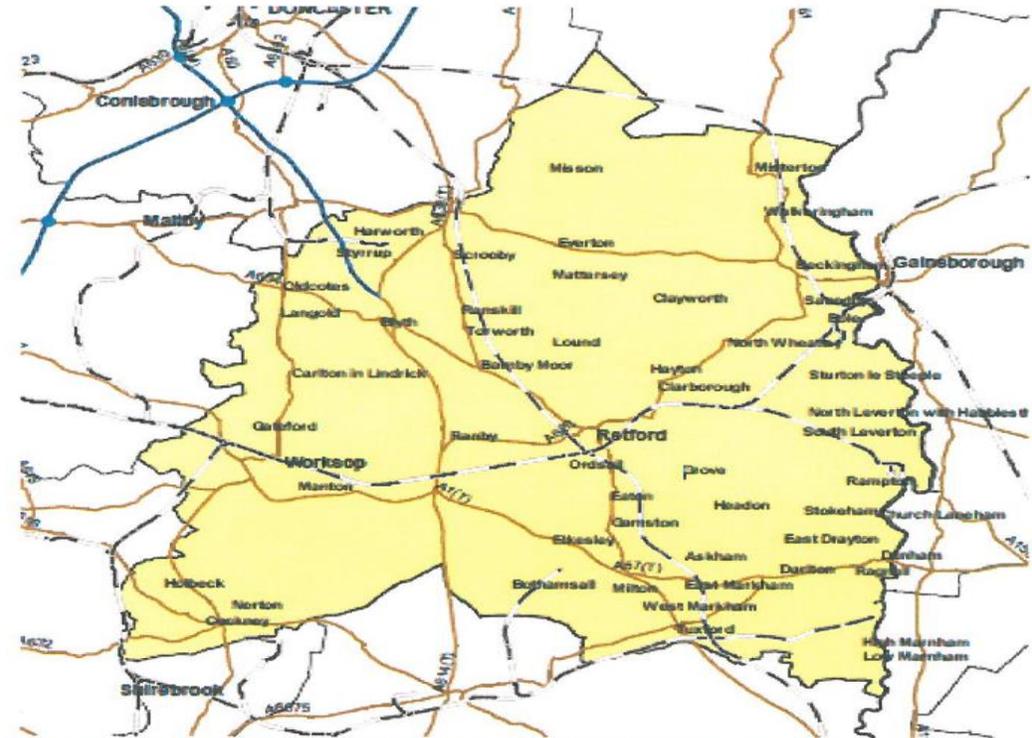

The Bassetlaw Place

Members of the ACP are from the following organisations:

- Bassetlaw CCG
- Bassetlaw General Practice (as providers of primary care services)
- Doncaster & Bassetlaw Hospitals NHS Foundation Trust (acute care)
- Nottinghamshire Healthcare NHS Foundation Trust (mental health)
- Nottinghamshire Healthcare NHS Foundation Trust (physical health – Bassetlaw Health Partnerships)
- Nottinghamshire County Council – Adult Social Care
- Nottinghamshire County Council – Public Health
- Bassetlaw Community Voluntary Services
- Bassetlaw District Council
- Healthwatch **

Delivering high quality care for patients in Bassetlaw: Our shared goals and challenges

Why are we working as an Accountable Care Partnership?

Our Common Purpose

Shared Focus

- Shared focus on **improving the health and wellbeing outcomes** for Bassetlaw citizens

Common Commitment

- Commitment to **work collaboratively** across our organisations to make this happen

Why do we need to do anything differently?

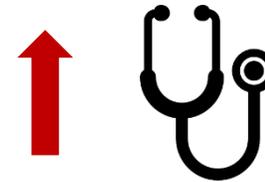

Not simply because we have growing challenges that demand urgent attention.....

Rise in elderly population

Rise in number of years lived in ill health

Rise in long term conditions

Not simply because we have a range of agreed priorities for action in Bassetlaw.....

Preventing ill health and promoting wellness

Integrated physical and mental health outcomes of patients

Supporting workforce development

Better care of the elderly

Greater management of long term conditions

Why do we need to do anything differently?

But also because you have told us things need to change for the better.....

"A more integrated way of working benefits the patient and provides a seamless approach between different services" **Patient**

"Services are working more closely together which provides better communication between teams to benefit the patient" **Patient**

"We need to join health and social care up better so we don't duplicate care and make sure patients get the right care at the right time and the right place" **Senior Adult Social Care lead**

"we're just too stretched to meet the demand so we need new ways of working" **GP**

"the patient expectation outweighs what we can do so we need to do things differently" **GP**

"the financial challenge means we can't afford not to do things differently" **Community Nurse Leader**

"the main problem is we are all working in isolation from each other and don't understand each other" **Specialist Nurse Practitioner**

"working more as equals together is really important" **Practice Manager**

"it's frustrating that everyone's too busy on the day job to work together to find out how we might work better in the future. We need to create this time" **Practice Manager**

"we need to take a more innovative approach to promoting closer working across boundaries to provide seamless services and keep patients closer to home" **GP**
