

What might 'better' look like?

For our patients, our staff and the way we work together

Building on the shoulders of giants!

We have an excellent platform on which to build on and create now a step change in our ways of working to meet those challenges.

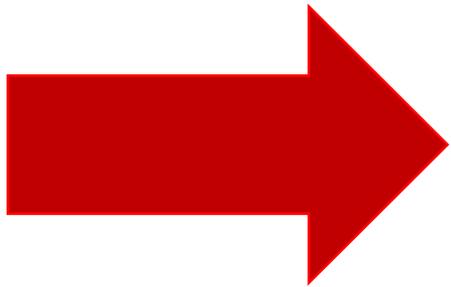

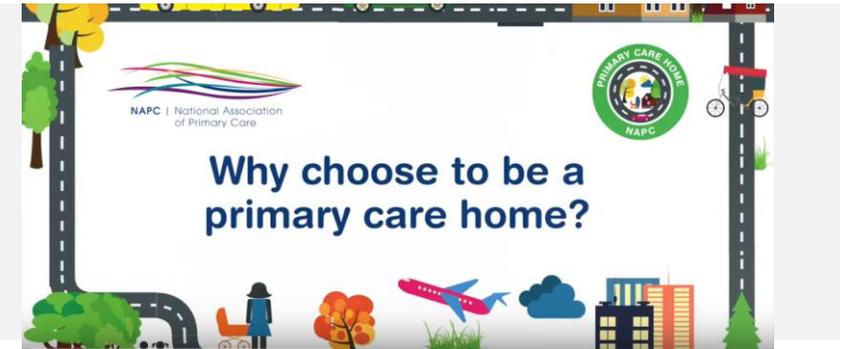

Celebrating our local accomplishments:

- ✓ CQC rated practices **Good/Outstanding**
- ✓ BCCG rated as **Outstanding** CCG for 2016/7 and 2017/8
- ✓ High levels of **patient satisfaction** ratings from national patient surveys
- ✓ **Recognised nationally** for the work in Bassetlaw on early development of PCH
- ✓ Collaboration between Bassetlaw Council Active Communities team, Retford NHS falls physios and BPL developed falls rehab programme
- ✓ The **reduction of pressure ulcers**
- ✓ The Rapid Response Team working within the Emergency Department at Bassetlaw Hospital, assessing and **discharging patients from the front door**
- ✓ The development of the **diabetes service** incorporating the Super Six Model
- ✓ Development of Social care clinics within GP Surgeries
- ✓ Implementation of the Home First Service to aid timely hospital discharge and reduce hospital admissions

So, how do we take this forward? How do we achieve 'Better in Bassetlaw'?

This is how others have done it.....

We think that we can meet these challenges by accelerating integrated ways of working through Primary Care Homes.

What are PCHs?

Core principles:

- ✓ Integrated pathways
- ✓ Care closer to home
- ✓ Coordinated care
- ✓ Diversity of membership
- ✓ Service co-design

Primary Care Homes in Bassetlaw ACP

Implement the 4 key characteristics of a 'model' PCH

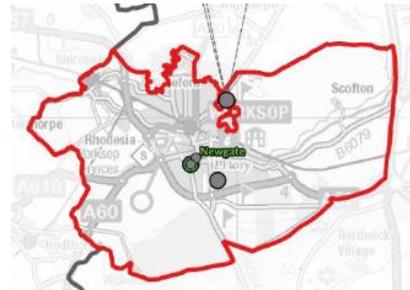

- A personalisation of care
- an integrated workforce
- aligned clinical and financial drivers
- a defined, registered population (30,000 - 50,000).

Larwood and Bawtry

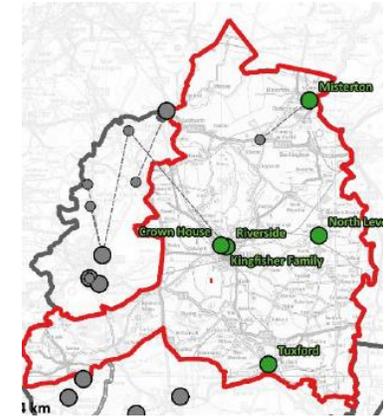

35,496 patients
3 GP practices

Newgate

30,228 patients
1 GP practice

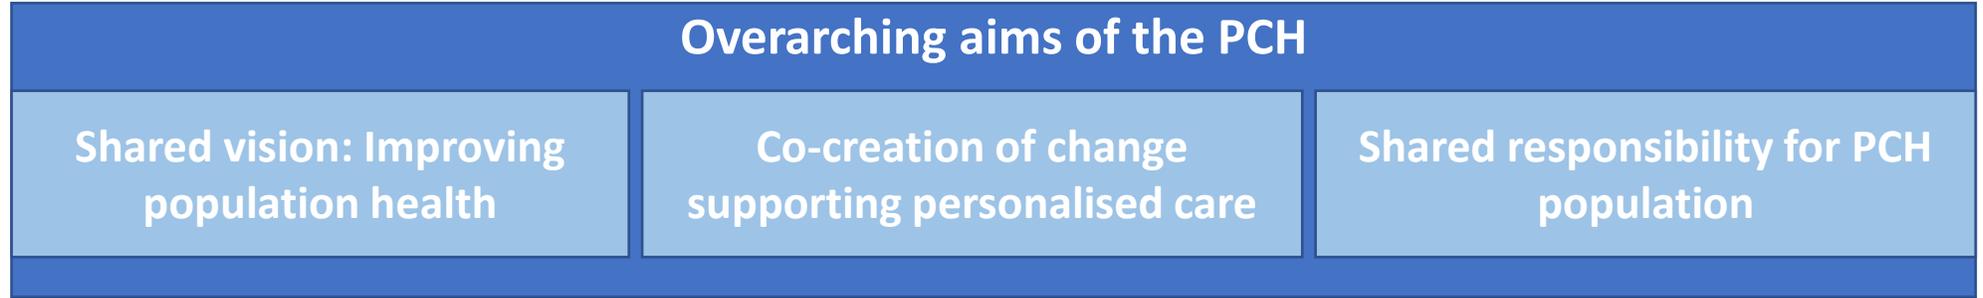

Retford and Villages

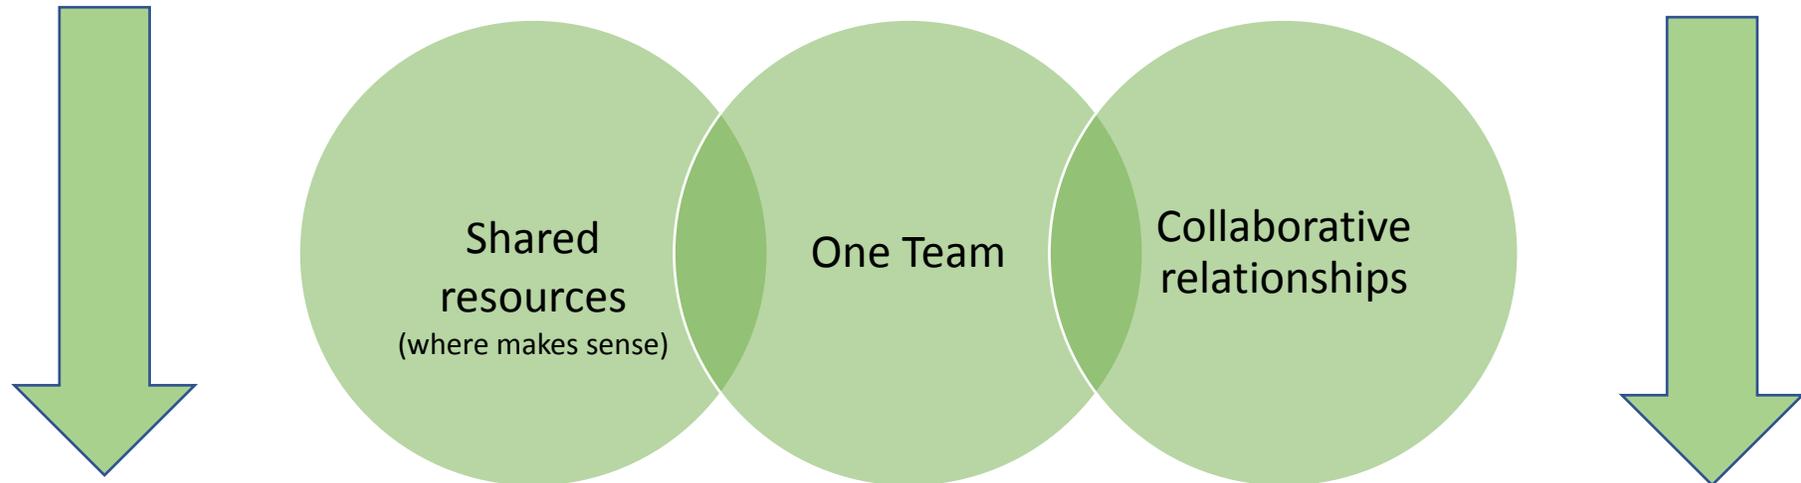

51,146 patients
5 GP practices

How can we make the PCH vision a reality?

Vision

How?

What does this mean for patients?

Starting on the journey towards integrative working
