What can our Flexible Day Opportunities offer?

Our experienced staff will work with you to create an individual plan of activities based on your goals, needs, interests and abilities.

We aim to help you develop existing and new skills by creating a structured timetable within a supportive environment.

We can support you to gain skills around getting ready to work, to gain qualifications and we can support some people within their employment.

All our activities specifically focus on developing communication skills, social integration, increasing confidence and maximising independence. This will support you to achieve your potential and support you to see your progress. We may also use assistive technology to increase your independence even further.

We look forward to celebrating your achievements with you!
