About BCVS

Bassetlaw Community and Voluntary Service (BCVS) works to challenge deprivation, health inequalities and social exclusion through empowering local people to engage effectively in voluntary and community activity.

We aim to create, support and develop sustainable, strong and vibrant communities. Our work involves communicating and facilitating a strong and effective community voice which will have an influence locally, regionally and nationally.

Our volunteering team hold over 300 volunteer opportunities across Bassetlaw and work to support those wishing to become volunteers, as well as organisations that have opportunities to promote. We offer support for both new and existing community groups ranging from funding support to administration services.

We run well attended networking events in addition to offering room hire for groups and individuals.

Area: Bassetlaw, Bolsover
