Themes: Care and Carers, Social Activities

Aimed at: Adults 18+

Day services, also known as day centres, provide you with the opportunity to get out and do something during the day, to help you stay independent. These include:

social activities

education, employment and training

local facilities and housing.

We run day services from a number of locations throughout the county. To find out more about day services read our factsheet below. We also have a list of independent organisations that provide day services.

If you are interested in going to a day service you need to complete a care and support assessment and be eligible for care services. Your care and support assessment will also determine how much you would pay for any day services that you visit.

To find out more call us on 0300 500 80 80.

Area: Bassetlaw
