Themes: Advocacy

Aimed at: Older Adults 65+

Blyth Country House is a 26 bed care home, specialising in care of older people, located in Blyth. The home is situated in a central location, close to all local amenities. Blyth Country House is a highly established home and is a large type of house set in attractive landscaped gardens.

We understand that choosing the right care home is a big decision and one that should be made with assistance from relatives and loved-ones. We encourage prospective residents and family members to assist in visits to ensure they feel comfortable in our home.

We work under a philosophy of care that dictates that all residents shall live in a safe and comfortable environment, where they are treated with respect and equality, irrespective of their needs and backgrounds and in an environment of trust and familiarity.

We believe it's extremely important to promote independence and understand that all of our residents should be treated as individuals so every person living with us has a plan of care designed around their requirements and preferences, granting them choice in all aspects of their daily routine

Area: Bassetlaw
