Themes: Health and Wellbeing, Housing, Mental Health

Aimed at: All People

Bassetlaw Hospice prides itself on giving the best possible care and support for you and your carers. Specifically we focus on effective management of troublesome symptoms, which may be affecting your quality of life and ability to enjoy day-to-day activities. Other referrals to the Hospice may be for emotional support and care towards the end of life.

We like to encourage early introduction to the hospice services through our Support and wellbeing centre or informal visits to help reduce your fears and anxieties later on. All services provided within our Hospice are holistic for you the patient, your family, your medical, physical, emotional, spiritual and psychological needs.

Area: Bassetlaw
