Themes: Advocacy, Specific Health Conditions

Aimed at: Adults 18+, Older Adults 65+

Here at First Care, we've been providing home care in the local community for over 15 years. In that time, we've found that what others may consider over-and-above, we see as business-as-usual.

We are truly committed to providing the very best care, with our care recipients' comfort and wellbeing being our top priority. Whether we're assisting with day-to-day tasks, accompanying a shopping trip or providing round-the-clock care, we will always do so with the utmost respect and compassion.

As well as being accredited by the Care Quality Commission, everyone in the First Care team has completed the centralised end-of-life requirement. We also make sure that all members of our team have the opportunity to take part in/receive regular training to keep up-to-date with the very best practices and new legislation.
