Themes: Healthier Lives, Learning Disabilities, Physical Disabilities, Specific Health Conditions

Aimed at: All People

FSO are a specialist provider of services for adults, young people and children. We have a wealth of experience of working with complex behaviours, creating an atmosphere where everyone can develop to their highest potential with the correct, experienced, and qualified support teams.

We are able to offer support to individuals who have an identified support need relating to a learning disability, mental health, forensic histories, physical disability, sensory disability, autism, aspergers syndrome, behavioural challenges, acquired brain injury or other complex care or support need.

Our philosophy is to work in a person centred way, along with the people who are important in your life, to provide support to enable you to maintain your existing skills, develop new ones and increase your confidence and independence. We can provide support within your own home, your family home, at school, college or place of work, in one of our short break facilities, within one of our supported living facilities or residential services. We can offer you support from 1 hour to 24 hours a day every day.

Area: Bassetlaw
