Mr Straws House is an historic visitor attraction. There are guided tours daily and it holds a series of special events and children's activities throughout the year.

This semi detached house has remained virtually unchanged since the Straw family moved here in the 1920's. For 60 years the Straws threw little away and chose to live without many of the modern comforts we take for granted today. Discover the original 1920's décor and the everyday objects the Straws treasured. This must-see, life sized time capsule is a rare treat for welcomed visitors.

Area: Bassetlaw
