

Spatial Planning and Health Framework

LAUNCH

Thursday 19 June
9.30am – 12noon

Online

The creation of healthy neighbourhoods where people live and work is a priority in Nottinghamshire and the new framework will be an important tool in achieving this vision.

This online event will illustrate the new framework and explore how the health and planning system can work together to shape our future neighbourhoods. The Town and Country Planning Association will set the scene with local partners demonstrating good practice and future opportunities.
