

Do you smoke and work in a routine or manual job in Derbyshire?

Healthwatch Derbyshire wants to hear from you!

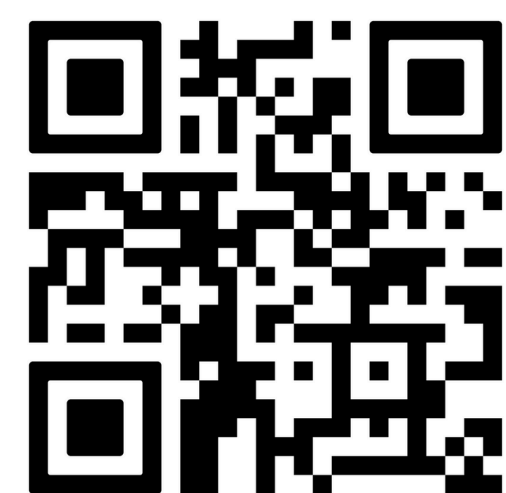

Routine and manual workers often include people in hands-on, practical jobs that often involve physical work.

They want to hear from you to understand:

- What sort of job you do
- Your smoking habits
- Your motivations behind smoking
- Your thoughts about quitting.

Your thoughts will help to improve communication strategies and smoking support services for the people who use them.

The survey takes 5-10 minutes to complete, and closes 18 July 2025.
